SUMMARY

Network Engineer with 2+ years of hands-on experience managing enterprise-level infrastructure at BARC (Bhabha Atomic Research Centre), one of India's most critical research facilities. Skilled in TCP/IP, routing, switching, VLAN design, Linux/Windows administration, and network troubleshooting. Currently transitioning into Cloud Networking with active AWS training (Solutions Architect Associate). Former CCNA instructor who coached 60+ students at Jetking. Seeking Cloud Networking or Network Engineer roles where infrastructure depth meets cloud-native thinking.

EXPERIENCE

Vidya Online Services Pvt. Ltd. — Client: BARC, Network Technician 04/2026 – Present | Mumbai

- Managed and maintained network infrastructure at Bhabha Atomic Research Centre in a high-security, mission-critical environment ensuring minimal downtime
- Diagnosed and resolved L2/L3 network issues using structured troubleshooting methods, reducing incident resolution time
- Administered Linux and Windows systems, handling both system-level and network-related issues for engineering teams
- Assisted in configuration and maintenance of routers, switches, and VLAN-based network segmentation

Jetking Infotrain Limited, Technical Instructor 10/2025 – 04/2026 | Vashi, Navi Mumbai

- Delivered hands-on CCNA and hardware networking training to 60+ students with a strong focus on practical, real-world scenarios
- Instructed students in TCP/IP, routing, switching, Windows Server, and troubleshooting using Cisco devices, Packet Tracer, and GNS3
- Introduced foundational AWS cloud concepts (VPC, EC2, cloud networking), strengthening personal cloud expertise through active teaching

Anand Technologies, IT Support / Network Support Engineer 05/2024 – 09/2025 | Thane, Mumbai

- Provided end-user and network support for LAN-based environments, ensuring reliable connectivity and minimal user downtime
- Configured IP addressing, subnetting, routers, and switches for small to mid-scale office networks
- Designed and implemented VLANs to segment network traffic and improve security
- Installed and maintained structured cabling, network devices, and desktop systems

EDUCATION

Diploma in Networking & Cyber Security, Quastech Institute 06/2022 – 05/2025 | Thane

BSC Information Technology, University of Mumbai 06/2022 – 04/2025 | Kalyan

SKILLS

Networking TCP/IP, Routing, Switching, VLAN, BGP	Cloud AWS (S3, EC2, VPC, IAM, CloudFront)	Systems Linux (Red Hat), Windows Server	Tools Packet Tracer, GNS3, VMware, VirtualBox
Development Android Studio, Python	Security Firewall, Port Security	Monitoring Network Monitoring	

PROJECTS

Static Website Deployment on AWS, S3 | CloudFront | IAM 03/2026 – 04/2026

- Built a responsive static website using HTML, CSS, and JavaScript with structured layout and optimized assets
- Configured Amazon S3 bucket for static hosting with proper public access settings and policy controls
- Secured delivery using HTTPS with SSL integration ensuring encrypted communication between users and server
- Enforced IAM roles and policies based on least-privilege principles to strengthen access control and security

Horizon Bank App, Android Banking Application, Kotlin | Jetpack Compose | Firebase | Room DB | Android Studio 02/2025 – 04/2025

- Engineered a feature-rich Android banking application using Kotlin and Jetpack Compose with modern UI design
- Integrated Firebase Authentication enabling secure user registration, login, and session management
- Utilized Room Database for efficient local storage, ensuring reliable data handling and offline capability
- Delivered core functionalities including balance tracking, transaction history, and account management features
- Crafted intuitive user interface inspired by leading fintech apps to enhance usability and user experience

Mental Mathematics Game, Kotlin | Jetpack Compose | Android Studio 01/2025 – 02/2025

- Designed an engaging Android-based game focused on improving calculation speed and logical thinking ability
- Introduced multiple difficulty levels to ensure progressive learning and continuous user engagement

SOFT SKILLS

Problem Solving, Analytical Thinking, Communication, Team Collaboration, Time Management, Adaptability
